Fierce Impact Media Announces Event to Ignite the Magic of Feminine Superpower

Dr. Diva Verdun, CEO of Fierce Impact Media hosts event to share the secret to maximize feminine potential to be fiercely confident and undeniably happy.

Los Angeles, CA — September 22, 2022 — Dr. Diva Verdun empowers women to tap into their feminine superpower to breakthrough limiting beliefs to Ignite their passion for Being during her 3-day live virtual feminine immersion starting September 30th, rightfully titled “*Ignite Your Fierce Life!*”.

Suffering from higher rates of depression than men, brought on mostly by the weight of oppression from various psychosocial factors, women tend to have lower self-confidence while being fiercely driven to find happiness and meaning in their lives. Dr. Diva Verdun provides women with an illuminating inward rite of passage to tap back into their feminine superpower to Ignite the F.I.R.E. within. This holistic approach based on the Principle of Oneness helps participants define their life’s purpose while re-birthing dreams long buried under the weight of fear, doubt, pain, and disbelief.

Dr. Diva Verdun holds a Doctor of Philosophy and dual Ministerial Ordinations in Metaphysics and Religious Science respectively and is a licensed Spiritual Practitioner. She has over 25 years of personal transformation, conscious awareness, and metaphysical and spiritual

training and has been affectionately referred to as a Master Teacher. As the Chief Evolutionary Officer of *Fierce Impact Media | Intuitive Feminine Education & Transformation* she offers conscious self-leadership coaching and mentorship, and a series of programs, events, and courses including a weekly feminine vlog to empower women.

Positive Client Impact

Many women have been impacted by Dr. Diva’s training. Yolanda Jones, a Senior Buyer embarking upon retirement and starting her own business, recently commented, “I was living unconsciously guided by limiting beliefs that sabotaged my joy and trapped me in the shadows of codependent cycles that made me feel I wasn't good enough for the life I really want. Dr. Diva showed me how to consciously take control of my own experience, design a life I truly love, and how to manifest it through my own feminine power.”
